PROMOTING SAFETY ON THE HIGHWAYS

The public, including automobile
owners who have a conscientious re-
gard for the safety of themselves and
other travelers, will very cordially
approve the sentence imposed by
Judge J. A. Barker on a motorist con-
victed of driving carelessly and
recklessly while intoxicated. The fine
of \$500 and costs, in addition to being
required to serve 90 days in jail, con-
stitute a sentence that will carry with
it a lesson the offenders are not likely
to disregard in the future.

The history of similar cases involv-
ing injury to persons or damages to
other automobiles from reckless
driving has shown that the imposition
of nominal or even heavy fines, do
not serve the purpose of reducing the
number of such offenses. Making the
fine a substantial sum and adding
the costs of prosecution and a jail
sentence is the only method by which
irresponsible drivers can be brought
to a realization of the fact that other
persons do have the right to be af-
forded protection. The payment of a
fine does not act as a deterrent. Able
to pay automobiles are generally
able to pay fines and many of them
regard such a penalty as part of the
cost of maintaining a car. A jail sen-
tence is a different proposition and
one that does not appeal to the aver-
age car owner as a desirable or pleas-
ant accompaniment of auto-ownership.
It is, however, most salutary in its ef-
fects in the direction of inspiring a
respect for the law.

If the courts everywhere would take
the view held by Judge Barker, and
see that speeders and reckless and in-
toxicated drivers are made to feel the
weight of the law's hand in the form
of a stiff jail sentence, the safety of
highway travel would be much more
effectively promoted.

DELINQUENT DOG TAX.

Dog owners in Fayette county and
elsewhere in the state who violate the
law by failing to take out a license
for their dogs and have thus in-
fringed protection during an im-
posed year, should bear in mind that they
are liable for the payment of the in-
crease and costs of prosecution even
though action is not instituted until
the following year.

For the purpose of checking up delin-
quents of Agriculture is endeavoring in a
campaign, jointly with the adjutants
of the county, to enforce the law. Hundreds of prosecutions have
been instituted and the activity has
thus far extended to but a few counties
in the state. Some dog owners
may escape detection but they will be
liable for prosecution next year for
failure to comply with the law this
year.

Thus far in 1920 there have been
1,421 prosecutions entered in the state
for violation of the dog law and each
case has been successfully terminated.
In 1919 there were but 107 prosecutions.

At present the activities of the en-
forcement officials are being centered on
Washington county. When that county
has been cleaned up the work
will extend to Greene, Fayette, Somer-
set, Westmoreland and adjoining
counties, in each of which arrests of
every known violator will be ordered.

The impression that the offenders
age largely confined to the rural sec-
tions of the state, to which the officers
will continue their attention, is wholly
erroneous. Quite as many cases of
the offense are being found in the
cities and towns and these will not be
permitted to escape.

The best thing dog owners can do
to avoid arrest and costs of prosecu-
tion will be to make prompt arrange-
ments for the payment of their license
fee. The state has no present inten-
tion of overlooking any violator in
either the town or country districts.

A chicken dinner quite naturally has
drawing power for members of the
dental fraternity.

Will "the higher up" be summoned
before the next court session? The
Bergall case, or will the indicted
guards from whom he escaped be made
the goats?

The school children are pleased that
his has been quite the dearest dinner
they have ever known.

To Pittsburgh judges who require
automobile drivers of with a fine of
\$500 make a run up to Somerset
and see how the "Pittsburgh" will
like the idea of responsibility.

One Thing They Hear,
Society Editor.

Still, these "crimes" don't prevent the
average girl from having the hon-
or of an opportunity in front of her
house.

Ready to Do Her Part,
Attorney.

If other states will do their part in
general forest preservation, this will
be one of the presidential duties.

Responsibility Of Voters

Manufacturers, however.

In the coming Presidential election
every honest man has resting upon
him a very grave responsibility. It re-
falls to meet it he becomes a traitor
to morality and to civilization. It
matters not whether he be Republican
or Democrat; it is his solemn duty to
vote for the man who represents in his
honest opinion the highest per-
sonal morality and who will be the
least controlled by selfish influences.

The Republican who votes his ticket
merely because his party says so is
recurring to his responsibility if he
believes that his party candidate is
not, all things considered, the best
man for the place.

The Democrat who votes at the be-
hest of his party without regard to the
character of the candidate or to the
influences which may have controlled
him or his nomination is equally as
false to his country and to civilization.

In times past many men have said
they voted for one candidate and pray-
ed for another, but the man whose
moral backbone is so weak that, re-
gardless of old-time affiliations, he is
willing to stand out and vote as he
prays and pray as he votes, is a
coward. He, too, is unworthy to
stand as a representative of morality
and an upholder of liberty.

If we would turn into the minds and
hearts of the voting people of this day
morality and honor, if we would in-
spire them, if we would make them
this country against the terrible evils
of what seems to be a breakdown of
the moral forces of the world, then it
becomes every man's duty to vote in
and in national affairs for the man
who in his honest opinion, after the
most thorough investigation, he can
make stands as the highest repre-
sentative of honor and virtue. He who
fails to do this should be forever
assigned to look his own children in
the face, for he by his vote will be
being his country to live in their regard
for honor and morality.

Carlyle said: "Your actions speak
so loud I cannot hear your words."
It matters not what professions a man
may make, whether he be a preacher
of the Gospel, a teacher of the young,
a business man, a farmer, a manufac-
turer or a laborer, who is unwilling
in all honesty and sincerity to vote
for the man who he believes to be
the highest type in honor and morality
of those who have been nominated in
local and national affairs acts in the
half of immorality. It matters not how
loudly he proclaims his morality.

Who is willing to vote one way
while praying that the other side may
win has not yet learned the first rud-
iments of the morality which must be
driven home into the American people
if this country is to be saved from the
sweep of treachery and immorality
which is abroad throughout the world.

Coal Output Is Above 11-Million TON PER WEEK MARK

The 1920 Short of the Record Made
During the First Week in Aug-
ust; Month of Last Year.

A national survey of coal produc-
tion in the United States for the first
week of August, 1920, has been com-
pleted by the United States Geological
Survey. The total output of soft coal,
including bituminous and sub-bituminous,
in the United States for the first week
of August, 1920, was 11,474,000 tons,
or an increase of 220,000 tons over the
week of the same month in 1919.

The output of hard coal for the first
week of August, 1920, was 1,100,000
tons, or an increase of 100,000 tons over
the week of the same month in 1919.

The total output of coal for the first
week of August, 1920, was 12,574,000
tons, or an increase of 320,000 tons over
the week of the same month in 1919.

The output of coal for the first week
of August, 1920, was 12,574,000 tons,
or an increase of 320,000 tons over the
week of the same month in 1919.

The output of coal for the first week
of August, 1920, was 12,574,000 tons,
or an increase of 320,000 tons over the
week of the same month in 1919.

The output of coal for the first week
of August, 1920, was 12,574,000 tons,
or an increase of 320,000 tons over the
week of the same month in 1919.

The output of coal for the first week
of August, 1920, was 12,574,000 tons,
or an increase of 320,000 tons over the
week of the same month in 1919.

The output of coal for the first week

PIG IRON STAGNANT IN SOME DISTRICTS; FINISHED STEEL DULL

Independents Have No Trouble in
Maintaining Their Price Schedule.

Special to The Weekly Courier.

NEW YORK, Sept. 8.—The Ameri-
can Metal Market and Daily Iron &
Steel Report will show the steel and
iron trade tomorrow as follows:

Pig iron is absolutely stagnant in
some districts, while in others there
is more than a very moderate degree
of activity. Finished steel products
are extremely dull in all of the lines.

No fresh demand for steel products
has been reported, and a heavy supply
is being dumped on the market, pre-
siding along on their old engagements.

In not a few cases the business, be-
cause independent mill, and their
customers are on the verge of "price
cutting" as a result of the situation.

As independent prices are maintained
and the customer needs the steel,
the independents are sound.

The independent mills are performing
well in maintaining their prices, al-
though they are not put in the way of
the policy of tempting to cut prices.

If anything, the average of nominal
quotations of pig iron prices is higher
than a month ago.

The dullness of the steel market,
now that September is fairly settled
upon, is representative and the only
reason that is reported in the situa-
tion is that the steel and iron trade
is not doing so well as it was a month
ago.

The situation seems to be that the
independent mills are holding their
prices, and the customer is not put in
the way of the policy of tempting to
cut prices.

As independent prices are maintained
and the customer needs the steel,
the independents are sound.

The independent mills are performing
well in maintaining their prices, al-
though they are not put in the way of
the policy of tempting to cut prices.

The Sporting World

WHITNEY NEXT SATURDAY'S

ATTRACTION, FAYETTE FIELD

With the undisputed claim as the champion team of the entire coke region, which it has justly earned, the Whitney baseball team comes here next Saturday for the third and deciding game of a series of three that it is playing in the Connellsville independents.

When Manager Barry made arrangements for the Homestead Grays to play a return game here last Saturday he did so for the sole purpose of breaking even with that team, but the locals hadn't a look in. Closely following that game, Barry was determined that the independents "had" to win over the Whitney team on Labor Day and with that end in view he set out to strengthen up the weak spots. Bringing in "Hobe" Fisher from the outfield and pulling him on second and with the placing of Taylor in left field, the independents was a hard team for the best to take over.

Whitney will not have Taylor to pull down flies in the coming game. He is booked to start his soccer ball season on that date. Much has been written and said regarding the playing ability displayed by Hobe Fisher, to all of which he is justly entitled. In the face of the fact that he is one of the independents' star players when they slight Sammy Labiak, which he first joined the local outfit, was at times a little wild, but receiving the proper encouragement from the management Sammy took hold and is today a mainstay of the team.

Whitney's pitcher, Kuzar, apparently is the logical twirler for next Saturday's mix, as he has been more effective than any pitcher the independents have faced this season.

RUTH HITS ONE OVER

FORBES FIELD FENCE

PITTSBURG, Sept. 8.—A crowd of more than 25,000 fans witnessed an exhibition game between the New York Yankees and the Pittsburgh Pirates here yesterday, the victory going to the visitors 7-0. Babe Ruth, the famous pitcher, was on the mound for the Yankees, and he pitched a perfect game. Babe Ruth satisfied the crowd in the ninth inning when he made a home run. He holed the ball over the right field fence for the longest hit ever seen at Forbes Field.

FOUR HILL LOSERS

TO ELM GROVE TEAM

The Fort Hill Tigers went down to defeat Tuesday at the hands of Elm Grove by the score of 3-8. On Saturday the Tigers will meet Elm Grove on the Hilltown grounds. A good game is expected. After the game a festival will be held, the proceeds to go toward the honor roll of the home boys who served in the World War. The ball game will be called at 4:30.

STATE LAW BEING VIOLATED

IN RE-SALE OF AUTOMOBILES

Special to The Courier.

HARRISBURG, Sept. 9.—The automobile division of the State Highway Department finds that a great many persons disposing of their automobiles fail to make out the necessary vendor affidavit which, according to the law, must be delivered to the purchaser. The latter not having this affidavit is unable to register his car with the State Highway Department even though the purchaser files with the automobile division the necessary vendor affidavit covering acquisition of the car.

The same conditions exist, the department finds, where a dealer takes a second-hand car in trade, the dealer failing to get the vendor affidavit from the seller and in a number of cases the dealer failing to file the vendor and vendee affidavits, with the fee of \$2.50 with this department.

The registrar of the automobile division said today: "Some dealers think that because they have a second-hand dealer's license it is not necessary to file vendor and vendee affidavits when they get possession of a second-hand motor vehicle. The department is making a vigorous campaign on this violation of the automobile law and many informations are being made before magistrates. The failure of the vendor to supply the necessary affidavit to the vendee is punishable by a fine of \$100 to \$200, or imprisonment for three to six months. Failure of the vendee to file the vendee affidavit is punishable by a fine of \$50 to \$100, or imprisonment for one to three years."

Section 26 of the automobile law of June 30, 1919, provides that operators of motor vehicles must carry their registration certificate or license, which they shall exhibit upon request or signal of any police officer or officer of the State Highway Department. The operator is also obliged to write his name in the presence of such officer, is an requirement, for the purpose of establishing his identity. Failure of the operator to give with him his registration certificate or license means that he may be fined from \$10 to \$25 and in the case of non-payment of fine be imprisoned in the county jail for a period not exceeding five days. The state police are conducting a vigorous campaign throughout the commonwealth and a great many motorists are being arrested for failure to carry the required certificates or licenses.

Inspectors of the automobile division are now checking dealers and user motor vehicles, and they find in numerous instances that applications have not been made for licenses. These inspectors have been advised that where they find a dealer coming under the provisions of Section 9 of the automobile law who does not have the necessary license they are to file information with the nearest magistrate, calling the arrest of the offender.

FIRST DAY'S RESULTS

AT TENNIS TOURNAMENT

NORTH END WINS

The North End team defeated Morrell at Fayette Field by the score of 5 to 3. The feature of the game was the pitching of McCashin and the hitting of G. Lech. Any team wanting a game with the North End team write N. Stillwagon, Connellsville.

LOOK AT THIS SCORE.

The South Side Farmers won a game from the Fairview independents, 13-12. There were three home runs and a triple play.

CONCERT FRIDAY

Good Program Arranged by Leckorin Frick Band.

All arrangements are completed for the concert to be given by the Leckorin Frick Band, band on the city playgrounds, corner of Fairview avenue and Carnegie avenue, on Friday evening at 8 o'clock. Lead William G. Oswald has arranged a program that is much out of the ordinary and contains many excellent numbers. It is expected that it will appeal to the lovers of those who like the better grade of band music but it also includes many popular hits of the higher voice. One of the songs is the entire score from the Victor Herbert George Golan opera, "A Royal Yacht" which will appear at a Pittsburgh theatre next week.

The vocalist will be Miss Blanche Dowling, a 12-year-old Connellsville girl, who made such a hit with her band at the Uniontown concert Sunday afternoon. The instrumental soloist will be William York, concert pianist with the York Hippodrome band, and heralded as one of the best in the country.

Smithfield.

SMITHFIELD, Sept. 9.—Weather Observer John Bare, Sr., gives the rainfall for the month of June, July and August as 20.6 inches. He predicts by months as follows: June, 3.7; July, 3.1; August, 1.2; total, 20.6. This is about twice the average rainfall for a year in Pennsylvania. He took his measurements from a square tin box set out in the open.

Ohio.

OHIO, Sept. 9.—John E. Martin of Keweenaw, W. Va., has arrived here to take the Baltimore & Ohio agency, relieving agent Bafferty.

Mrs. Jennie Keller and daughter returned to their home at Mount Pleasant yesterday after the past week spent at Kumbert and this place.

John E. Ruch of Ehren, Fla., arrived here Tuesday to spend the week with relatives.

Mrs. Rosa Linderman and daughter, Mrs. C. A. Walsh and daughter spent Tuesday the guests of Bidwell relatives.

Rimer Link returned to Pittsburgh Monday evening after the past week spent here.

A. J. Jeffries is moving his household goods to Maple Summit where he will reside. Mr. Jeffries recently sold his property on Garrett street to John Cox.

Miss Gertrude Marietta has returned to her home at Connellsville.

H. C. Jones of Pittsburgh spent Monday with his family here.

Mr. and Mrs. W. R. Johnson and family motored to Uniontown Monday. Hugh Bafferty attended the races at Uniontown Monday.

Miss Evelyn Linderman is spending a few days at Bidwell.

Dickerson Run.

DICKERSON RUN, Sept. 7.—H. G. Harris, P. V. Madden, Harry Shickel, G. W. Beatty and James O'Donnell were recent business callers at McKees Rocks.

J. B. Crook of Pittsburgh was calling on friends here this morning.

Mrs. Pearl Marshall of Panama is the guest of her brother and sister-in-law, Mr. and Mrs. Emmett Stinson, Vanderhill.

Mr. and Mrs. Earl Lint and son have returned to their home at McKees Rocks after a very pleasant visit here with Mr. and Mrs. N. N. Lint.

P. H. Staller of Coatsopolis was a business caller here this morning.

Mr. and Mrs. George Lovegood and children were the guests of Mr. and Mrs. William Roland, at Trotter, yesterday.

Mrs. Anna Moran of Scottdale spent Sunday with her daughter, Mrs. Jennie Beatty.

R. F. Hepler was transacting business at Connellsville last evening.

Mrs. Bert Ware of Scottdale spent yesterday here visiting her parents, Mr. and Mrs. Thomas St. John.
